

## Emerson J. Lake, Retired N. Y. Policeman, Kills Self with His Revolver

Had Been in Ill Health and Left Note Stating that He Could No Longer Live in His Condition.

### COMMITTS SUICIDE

**FINDS BODY**  
Meyer Gasool Finds Body in Shed in Rear of His Residence, 298 Clinton Ave.

Emerson J. Lake, 69, a retired New York city policeman, of 300 Clinton avenue, shot and killed himself shortly after 6 o'clock this morning, but his body was not discovered until about 9 o'clock.

Mr. Lake, who had been in ill health for several years, left a note addressed to Mrs. Emma Steen, who kept house for him, in which he stated that he could "no longer live in his condition." He had muffled the muzzle of a .35 calibre revolver with a piece of white cloth to deaden the sound of the shot.

The shooting was investigated by Officers Wesley Cramer and Harry Martin, who had been sent to the house by police headquarters in response to a telephone call that a man was dead at the Clinton avenue address.

Coroner Lester H. DuBois of New Paltz, who had been notified of the suicide by Chief of Police J. Allan Wood, took charge of the body and had it removed to the morgue of A. Carr & Son. The coroner said that it was a plain case of suicide and that the dead man had left a note stating his intention to end his life.

Mrs. Steen, who was questioned by Officer Cramer, said that the last she had seen of Lake was about midnight and that she had not heard a shot fired, and the first she knew of Mr. Lake's death was when the officer questioned her.

Pittsfield, Mass., Aug. 9 (AP).—Sheriff Bruce McIntire reported today that Eustace Sanchez, 37, in custody for the grand jury on charges of the attempted murder of his wife, Alice, and the slaying of Fred Mausfeld, 27, committed suicide.

McIntire said Sanchez hanged himself in his cell.

Mr. and Mrs. Sanchez and Mausfeld were residents of Katonah, N. Y.

## House Labor Unit Favors Passage of Wage-Hour Bill

Washington, Aug. 9 (AP).—The House labor committee formally recommended today enactment of a revised version of the wage-hour bill already approved by the Senate, asserting it would greatly strengthen collective bargaining efforts.

"The bill is intended to aid and not supplant the efforts of American workers to improve their own position by self-organization and collective bargaining," the committee's report said.

Terminating the measure "a modest and conservative approach" to the objectives outlined by President Roosevelt in his message to Congress recommending such legislation, the committee said it represented "an attempt to begin to meet and not to avoid some of the most vital problems of American economic life."

Designed to apply only to industries in interstate commerce and those directly affecting such commerce, the bill would empower a national labor standards board to fix minimum wages not higher than 40 cents an hour and a work week as short as 35 hours in favor of the more moderate Senate provisions.

Changes in the Senate bill eliminated an exemption for local retailers. Others would require appointment of the five-member labor standards board on a geographical basis with specific representation for employers and labor; would provide for appointment of the board.

It was evident that Mr. Lake had either risen early this morning or had not retired for the night. He was fully dressed in shirt, pants and socks and shoes, but wore no coat or hat.

He had taken his revolver, a .35-caliber, and had left the house and had gone into the back yard. Standing in the doorway of the small wooden shed, he had placed the muzzle of the revolver to his throat and pulled the trigger.

As the bullet pierced his throat it passed upward through the head, and he fell flat on his back. That the wound had bled profusely was shown by the fact that when the body was found the head lay in a pool of blood.

The white cloth was still wrapped about the muzzle of the gun, and the gun was firmly gripped in his hand.

It was evident that Lake had planned to end his life, for a note written by him and addressed to Mrs. Steen was found in the house in which he stated he intended to end his life. The note was written in pencil.

Mr. Lake had been a resident of Kingston for a number of years, making his home here when he retired from the New York police force. For a number of years he resided on Fair street.

He was well known in the upper section of the city.

## Driving Can Be Safe Despite Miles Traveled, Highway Safety Head Says

Albany, N. Y., Aug. 9 (AP).—Automobile accident exposure, the head of the Highway Safety League declared today, can be governed by the individual driver regardless of how many miles he travels annually.

"A motorist traveling 25,000 miles in a year does not necessarily incur five times the rate of accident exposure of one covering but 5,000 miles," said Dr. E. Lester Jones of Albany, league president.

Traffic accident exposure, he added, is governed by: Total mileage; density of traffic over the route traveled; average speed; average proximity to other vehicles traveling at high rates of speed and care, alertness, skill and consideration of the rights of "other users of the road."

Dr. Jones pointed to 10 "elementary" rules for decreasing the individual accident exposure:

Use proper hand signals.

When another driver follows too closely at high speed, slow down an instant and let him pass.

Don't drive in excess of 50 miles an hour.

When sleepy, park off the road for a catnap.

Don't park on the public highway.

Keep your car in the best mechanical condition.

If necessary to travel at a snail's pace on a crowded highway,

## Brick Parley Planned To Give Quinn Chance To State His Demands

Labor Relations Group of Manufacturers and Union Representatives Meet at 2:30 o'clock Today.

### WORK RESUMES

First Tow-Load Moves Sunday from Goldrick's, and Men Make Bricks There Today.

A conference between the Labor Relations Committee representing the brick manufacturers and the representatives of the union was scheduled to be held this afternoon at 2:30 o'clock at the Governor Clinton Hotel. At that time it was expected that Joseph Quinn, organizer for Brickhandlers' Local No. 1467, would present his demands to the yard operators in an effort to bring to a termination the strike of brickyard employees which has tied up the Hudson valley brick industry for the past month.

A representative of the yard operators this morning told a Free-Press reporter that the meeting had been called at the request of Mr. Quinn and that under the law the owners were compelled to meet with the organized employees' representatives and listen to their demands. There was no prediction forthcoming as to what might transpire at the meeting other than a statement that the brick manufacturers would discuss with Mr. Quinn "what he had in mind when he asked the operators to meet with him today."

### Goldrick's Resume

There was a resumption of operations at the Goldrick yards yesterday when a tow picked up brick at the yard for delivery in New York city. This was the first brick to leave Ulster county since transportation facilities were tied up when the transportation union refused to move brick on the river. Apparently some adjustment had been made between the yard and the tugboat captains' and Deckhands' Union in order to permit the shipment of brick.

Inquiry at the Goldrick yard this morning brought out the fact that the yard had resumed operations but no statement as to the number of men at work was made. It was stated that Mr. Goldrick was out of town. The yard it was stated was operating.

Meanwhile Business Representatives Thomas Bennett of Brickhandlers' Local No. 1467, said the Rockland Brick Company at Havenside had signed a contract with the union.

Saturday night a meeting was held at St. Colman's Hall, East Kingston, for the purpose of voting for officers for the newly formed local. No statement as to the election was available.

### Killer Hunted

Deposit, N. Y., Aug. 9 (AP).—New York state police and deputy sheriffs hunted today the person who shot and killed Carl H. Mahnkens, 12, of Shaver Hill. Mahnkens, Police Chief James Carson said, was shot by a heavy calibre rifle as he walked across an open field with a companion, William Lawson, 3, also of Shaver Hill.

### 300 Dead in Floods

Keijo, Korea, Aug. 9 (AP).—More than 300 persons were reported today to have been killed and 150 injured in floods in Northern Korea. Almost 2,700 homes have been washed away or demolished by the force of the waters.

### Bombing Planes

Bombing planes accompanied by strong escorts of pursuit planes took off at dawn today from Bilbao's international airport and other fields, roaring toward the government lines to drop their deadly cargoes.

At almost the same time artillery began a systematic shelling of the positions that the general staff decided must be taken as an entering wedge for the insurgent troops.

Insurgent sources said recent victories on the northern front had left Gen. Franco's pilots "in almost complete control of the air," permitting the same coordinated air, artillery and infantry action that smashed through Bilbao's elaborate chain of hill defenses.

From Salamanca the insurgents issued a communique yesterday reporting all quiet on the civil war fronts just as they did before the final Bilbao offensive started.

### Line Pushed North

As the new northern offensive started, the embattled Spanish government pushed its Albaracin sector line north and dug into positions blocking the insurgent threat to the Cuernca-Torrel highway, key to communications linking Madrid and Valencia.

Government scouts reconnoitered the towns of Guadalquivir and Villa Del Cobo, advancing the government vanguard within sight of Grigolos, western-most point of the insurgent salient.

Battlefront dispatches indicated strong reinforcements were reportedly concentrated behind the government lines while labor battalions rushed work on elaborate fortifications in the Valdecanal mountain passes northeast of Cuernca, capital of the province.

## Three Die by Lightning at Manhattan Beaches, 140 Others Recovering

New York, August 9 (AP).—Fourteen persons were recovering today from the stunning shocks of lightning bolts that took a toll of three lives at metropolitan beaches.

Jagged prongs of one great lightning fork struck apparently simultaneously yesterday afternoon among widely separated groups of bathers. The bolts came during a brief freak storm.

A five-year-old boy, Robert Andrews, Jr., was killed as he and his father huddled with a score of other persons in a wooden shack at Rockaway Beach. A mile away, Walter Folwaczny, 23, and Stanley Maciejczyk, 17, both of Brooklyn, were killed instantly.

The bolts also bowled over men and women huddled beneath rain-drenched beach umbrellas. A doctor rushed to the scene said he found the beach "like a battlefield."

One of the coast guardsmen speeding to rescue a stranded private craft was temporarily paralyzed when the lightning struck their boat.

Panic spread among fishermen and bathers in the mile-square area where the bolts found their human targets and hampered rescue measures.

## France Protests Machine-Gunning Off French Steamer

Paris, Aug. 9 (AP).—France protested to the insurgent Spanish government today over the machine-gunning of a French steamer and warned Francisco Franco that planes and gunboats would guard her Mediterranean lifeline with quick fire hereafter.

Despite insurgent denials, French authorities said they had established definitely that insurgent planes attacked the Djebel Amour off Algeria last Friday. Ships of Britain and Italy were simultaneously attacked.

The protest said French gunboats and planes hereafter would convoy French merchantmen in the Mediterranean and that they would fire forthwith on any attacker.

### "Final Offensive"

Hendaye, Franco-Spanish Frontier, Aug. 9 (AP).—Generalissimo Francisco Franco's northern forces today launched what insurgent officers called their "final offensive" against the provinces of Asturias and Santander, last government stronghold in North Spain.

Insurgent planes and artillery bombed government defense lines in the Biscayan sector in an effort to wipe out the last government resistance on the Basque-Asturian front.

Insurgent reports declared the bombardment was as intense as the deadly fire poured into forces today anchored within Bilbao before that Basque capital fell last June. The northern sector had been virtually quiet since the insurgents advanced through Bilbao and a short distance along the highway to Santander. It was believed renewed hostilities meant Gen. Franco hoped to mop up the region before fall in order to release his northern concentration of troops and war equipment for use on the Madrid front.

In insurgent reports declared aviators and artillerymen had been waiting several days for "perfect weather" in order to smash at the government lines with the Maxim gun efficiency.

### Treasury Receipts

Washington, Aug. 9 (AP).—The position of the treasury August 6 receipts, \$21,193,426.15; expenditures, \$24,567,653.77; balance, \$2,819,003,800.15; customs receipts for the month, \$8,450,321.75. Receipts for the fiscal year (since July 1), \$568,627,666.15; expenditures, \$831,702,634.55, including \$233,342,314.01 of emergency expenditures; excess of expenditures, \$263,074,968.37; gross debt, \$36,512,658,817.56, a decrease of \$1,755,755.81 under the previous day; gold reserve, \$12,475,271,706.15, including \$1,243,849,053.97 of inactive gold.

### Murderer Will Be Named

Providence, R. I., August 9 (AP).—Coroner Conrad K. Strauss said today he was ready to name the slayer of Dr. George W. Webster, obstetrician.

Strauss' statement, the most definite promise to come from any investigator since the physician was murdered July 15, was accompanied by this declaration: "We already know the motive." He added that his inquiry was virtually completed, with only a few witnesses remaining to be questioned. Among these is Mrs. Kathryn Webster, widow of the slain physician.

## Saugerties Requests State for By-Pass to Eliminate Congestion

Village Board Asks State to Eliminate Heavy Traffic Passing through Main and Partition Streets in the Village.

### LETTER TO BRANDT

Location of By-Pass Not of Interest as Only Concern is Immediate Relief.

The traffic problems besetting the officials of the village of Saugerties have resulted in the village board sending a communication to Commissioner A. W. Brandt, of the division of state highways, asking that the state take some steps to have a by-pass constructed to eliminate heavy traffic passing through Main and Partition streets in the village. The communication states that the location of the by-pass is not of interest to the board as their only concern is that something be done promptly to eliminate this traffic congestion problem in the village.

The letter sent to Commissioner Brandt reads as follows:

The traffic condition in our village is fast becoming a matter of grave concern to the village officials and residents.

You are no doubt more or less familiar with the situation as representatives from different local organizations such as the Chamber of Commerce have placed the facts before you, showing the congested area that exists. The village board have given this matter considerable study and thought and a short time ago decided to try a plan which they felt would tend to relieve the badly congested condition of the Main and Partition streets. The plan was one which would use different village streets that would lead them back to 9-W highway whereby eliminating the use of Partition street for this heavy traffic.

A number of residents of the streets over which the trucks traveled have lodged with the board a vigorous protest against the use of the village streets for heavy traffic which should be confined to the use of the state highway. Insured that our village streets were not constructed to withstand the hard use they are subjected to by permitting heavy trucks to go over them.

The village board is desirous of having something done which will eliminate this serious traffic congestion, they feel that the only solution is that the state highway department construct a by-pass, the location of this by-pass is not of interest to the board, their only concern is that something be done promptly to eliminate this traffic congestion problem in the village.

It has become a very serious matter in our village.

A petition is being procured and it will be signed by the taxpayers of our village and will express the sentiments of our residents here on this important question; the petition will be forwarded to you within the next few days.

May we not have your assurance that your department will place the construction of a by-pass at Saugerties on your next schedule of highway construction.

Very truly yours,

VILLAGE BOARD OF TRUSTEES, OF SAUGERTIES, BY WM. F. KEENEAN, Clerk.

### Payrolls Ordered

Buffalo, N. Y., Aug. 9 (AP).—Regional Director Henry J. Winters of the national labor relations board today ordered employers to produce payroll records by effort to bring settlement of Buffalo's 18-day walkout of union butchers at three major packing plants. Winters said he ordered the pay sheets for evidence in a relations board hearing Thursday.

The hearing, he indicated, may decide without the necessity of an employee election whether the C. I. O. butchers and meat cutters local represents a majority of the 1,200 workers.

## Chinese Block Roads Near Native Areas as Japanese Evacuate Yangtze Valley

### WAR IN CITIES OF MANCHUS

The Japanese soldier above stands behind barbed wire in Chinese streets, guarding against possible native uprisings. Similar scenes prevail in other north Chinese cities as Japan attempts to create a buffer between herself and Russia even larger than the present Japanese-controlled Manchukuo.

Shanghai, Aug. 9 (AP).—The Chinese peace preservation corps barricaded roads leading to Chinese areas around excited Shanghai tonight after a clash in which one Chinese soldier and one Japanese were killed.

The clash came as Japanese refugees evacuating the Yangtze valley and other central Chinese areas poured into Shanghai.

The Kiangwan area on the northern fringe of Shanghai, scene of major Chinese-Japanese fighting in 1932, was rapidly closed off.

### JAPANESE TERMS

Peace Negotiations Loom, but at Terms Laid Down by Japanese.

Members of the peace preservation corps (militarized police) patrolled the roads armed with rifles and hand grenades, and heaped up sandbag barricades.

The Kiangwan and Chapel areas on the north and northwest, border Japanese military headquarters, the Japanese community, and the northern edge of the international settlement.

Chinese said tonight's clash came when a Japanese marine motor truck attempted to enter the Chinese government's Hung-jao airfield in the western environs of the city.

Sentries challenged the marines, but they refused to halt. Then the Chinese opened fire.

Time for Peace

Even at the time of the new clash, responsible circles said the Japanese army apparently believed the time had come for peace negotiations with China on the Japanese army's own terms.

However, light Sino-Japanese skirmishing also was reported from the north, 30 miles south of Tientsin, between Japanese cavalry and Chinese outposts.

The sources which reported today's trend toward negotiations made it plain the Japanese army's terms would be recognition of Japanese control of the rich North China province of Hopei, where Japanese have driven out most Chinese troops in a month of undeclared war.

Chinese officials at Nanking declared their willingness to negotiate, provided that conditions laid down by Generalissimo Chiang Kai-Shek were accepted as a basis.

Those conditions were: A settlement must not infringe on Chinese territorial integrity; There must be no alteration in the status of the Hupoh-Chahar political council; restrictions must not be placed on the positions held by the Chinese 29th army.

Despite the conflicting viewpoints, Japanese and Chinese expressed a belief that the conflict might be settled peacefully, for at least a time.

### Civil Government

Tientsin, Aug. 9 (AP).—While the Japanese army completed its conquest of Northeastern Hopei Province from China today, Japanese administrators moved slowly toward establishment of a permanent civil government that would ignore the rich region.

A Japanese brigade of 3,000 men marched into the city of Peiping yesterday with 50 trucks, ten heavy and five light tanks and considerable cavalry, took the ancient capital of China's Manchukuo emperors under its protection and made it, for all practical purposes, a Japanese city.

The Japanese troops, commanded by Major General T. Kawabe, paraded along the boulevards and deployed throughout the city, taking up garrison duties.

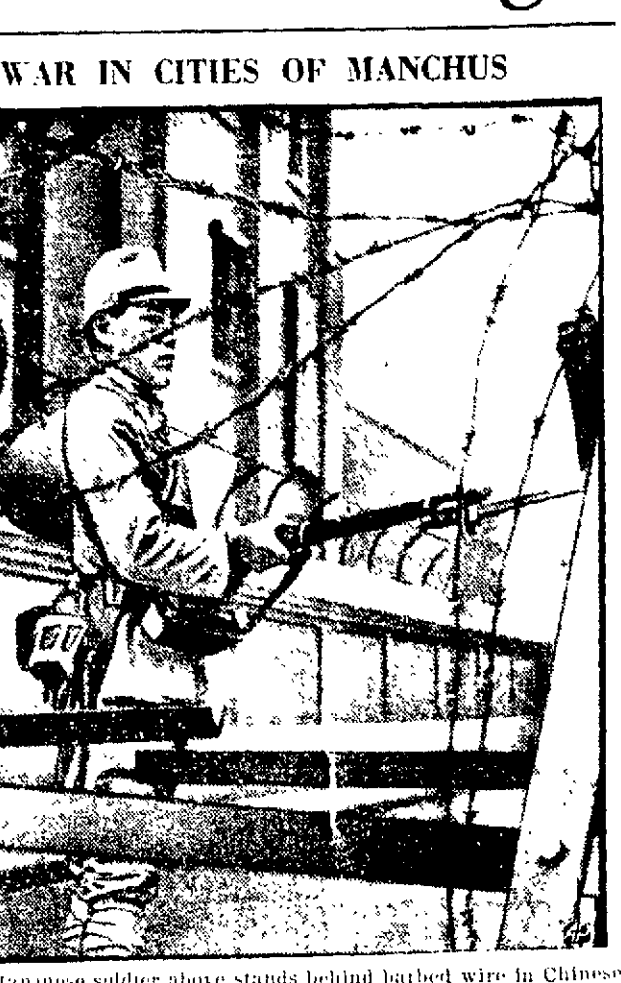

In Tientsin, army headquarters of the Japanese who have wrested Northeastern Hopei from Chinese troops in a month of undeclared war, the judiciary, police and communications administrations were brought under complete control. The Japanese co-missioner of the Chinese salt monopoly announced he had taken charge of the Tientsin administration district, including the Chang-shu salt fields, one of the richest in China.

The municipal governments of Peiping and Tientsin, formerly under control of the Chinese cabinet at Nanking, have been placed in the hands of the Japanese formed and supported "peace preservation societies." Their aim is to "register" opposition to the advance of troops of the Chinese government into Hopei and maintain friendly relations with Japan.

### Usefulness Ends

The usefulness of Tientsin's mayor, Gen. Chang Tzu-Chung, (Continued on Page 10)

## Gray Pays Fine for Drinking; Later Conjecture About Reports Bed Afire

Harry Gray of Port Ewen had a rather hectic time of it over the week-end. Sunday afternoon he was arrested by Trooper Paul Senecal on a charge of driving while intoxicated. He paid a fine of \$10 when arraigned before Justice Benjamin H. Sleight of Port Ewen, and left for home.

About five o'clock this morning Gray told Frank Doyle that his house was on fire. Doyle summoned the Port Ewen fire department. The firemen found a couch on which Gray had been sleeping was on fire. They carried out the burning couch. It was not necessary to use water or chemicals and damage was confined to the burned couch and bed clothing.

Gray, who said he had been smoking his pipe when he fell asleep, lives in a house on the River road at Port Ewen. He was alone at the time of the fire, his wife being at a neighbor's.

### 21,000 Return to Work

Detroit, Aug. 9 (AP).—Twenty-one thousand automobile workers left last Wednesday because of a 14-hour work stoppage. The workers returned to work today. A two-point agreement was reached over the week-end by representatives of the Chrysler Corporation and the United Automobile Workers of America. Unionists ratified the agreement at a mass meeting Sunday.

### Father Boland Comes Out To Aid Employers

Rochester, N. Y., August 7 (AP).—The Rev. John P. Boland, head of the state labor relations board, believes in collective bargaining for employers as well as their workers.

Speaking at a Catholic worker youth rally here last night, Father Boland urged formation of associations of employers in different industries, free unionization of employees and "joint action by representatives of the two groups on wages, hour and working conditions."

Regarding power of such employers to stifle competition within their industries, he said the federal government should keep them under surveillance and see that no anti-monopoly law was violated.

The pickets shook their fists and jeered at workers inside the restaurant, and by shouts and placards advised police to "keep hands off." The police simply kept them moving.

Officials of Horn and Hardart said business was unaffected by the strike. During the demonstration, which lasted about an hour, would-be customers found it difficult to get in because of the sheer number of pickets. Forty-four restaurants were said by union officials to be involved.

## Nickels Still Bring Food from Slots In Automats; Pickets Shout, Parade

New York, August 9 (AP).—Nickels in the slot still produced food in New York's "automat" restaurants today, despite a strike which brought to Times Square one of the noisiest picketing demonstrations of recent months.

Yesterday, with most of the chain's establishments closed for the Sabbath, pickets of three American Federation of Labor and one Committee for Industrial Organization Unions concentrated on the Broadway restaurants open for business, and there staged demonstrations which reminded spectators of college "snake dance" celebrations.

Today the strikers planned to extend operations to 27 retail shops operated by the Horn and Hardart Company, owners of the "automat" chain. Jay Rubin, A. F. of L. organizer, said the strike would be extended to Horn and Hardart establishments in Philadelphia, employing 5,900 workers.

A detail of 30 foot policemen and several police radio cars shepherded yesterday's Broadway pickets, who were kept moving in a great circle, shouting vigorously.

In the center was a union baseball team, which displayed an American flag. They stood in the middle of Broadway, the chanting pickets numbering about 150, winding around them creating a spectacular din.

About 3,000 spectators were attracted. The pickets shook their fists and jeered at workers inside the restaurant, and by shouts and placards advised police to "keep hands off." The police simply kept them moving.

Officials of Horn and Hardart said business was unaffected by the strike. During the demonstration, which lasted about an hour, would-be customers found it difficult to get in because of the sheer number of pickets. Forty-four restaurants were said by union officials to be involved.

## FINANCIAL AND COMMERCIAL

By CLAUDE M. JAGGER

### Normal Summer Recession Is Now Seen In Business

A review of the past week in trade and industry indicates a normal summer recession in business; as a matter of fact, some business indexes show that business as a whole has been pointing steadily upward. Although steel output last week showed an increase, expectation is that there will be a tapering off the remainder of the month. Automobile output, gradually slowing up, is now below the figures for this time a year ago, although the total for 1937 is substantially ahead of 1936 figures. The consumption of electric power and railroad freight car loadings furnish indications that business activity is continuing. Textile mills are maintaining volume operations, with an accumulation of orders, although forward ordering continues to show a let-up. Nearly all metal markets have shown strength the past week. All the non-ferrous metals showed an upward movement. Copper was held at 14 cents although export copper commanded a higher price. Scrap steel showed a considerable advance.

With the stock market the past week showing little sign of animation, industrial issues added but little to their net gains of the week before; railroad shares remained about on the low level they had reached and utilities took a further drop. Cotton held its ground; wheat showed a further net decline of around three cents; corn closed somewhat higher.

In the retail field, department of commerce reports from 25 key cities, showed business during the opening part of August to have risen seven to ten per cent ahead of last year.

While the UAW has improved the hourly wage rate for individual workers it appears that total earnings have decreased because of stoppages through labor disputes, shorter hours and elimination of overtime.

Colgate-Palmolive-Peet reports net earnings of \$1,715,506 for six months ending June 30, after deducting loss of about \$600,000 on account of flood damage at the Jeffersonville, Ind., plant. Equals about 50 cents on common after providing for regular preferred dividends.

Worthington Pump & Machinery shows net of \$6.21 on combined preferred shares for six months to June 30. Compares with net of \$1.12 on combined preferred shares a year ago.

### 60,000 Called Out In Silk Tie-up

Patterson, N. J., Aug. 9 (AP).—A C. I. O. strike call to 60,000 silk workers in New Jersey, Pennsylvania, New England and New York caused thousands of men and women to leave their looms today in an announced effort to obtain union contracts to improve labor conditions and stabilize the industry.

The only disorder reported along the wide front was at Hazleton, Pa., where a picket at the large Duplan Silk Corporation mill was stabbed in the arm. His alleged assailant was arrested after being almost mobbed by the crowd which gathered.

Earlier four sheriff's deputies were sent from Wilkes-Barre to aid nine city policemen on duty. The Duplan management said pickets, some of whom were recruited from the ranks of anthracite mine workers, jammed so tightly about the gates that some of the 1,100 workers who pushed through the lines emerged with torn clothing.

### Cars Sideswiped Near Torino's

Cars driven by Harry Kopp, of 299 Howard avenue, Passaic, N. J., and Frank Principe, of 440 Washington avenue, Kingston, were badly damaged when they sideswiped about 6:45 Sunday evening. The accident took place near Torino's Inn, on the South Ashokan boulevard.

Deputies Vredenburg, McCullough and Winn answered a call to the sheriff's office and Troopers Reilly and Sweeney also made an investigation. There were no arrests.

New York, August 9 (AP).—Stock market leaders got a new hold on recovery today as selected steels, rails and specialties climbed fractions to 2 or more points.

Some profit selling arrived in the afternoon, but favored issues were around the turn near the final hour. Several were at their best levels for the month.

Trading slowed after a fast first hour. Transfers were at the rate of about 850,000 shares.

Cotton futures fell sharply on the government's crop figures. Bonds improved. Most commodities were uneven.

A break of more than 5 points in Auburn Motors, following completion of the sale of the E. L. Cord interests to the Wall Street group, was an unsettling influence at the start. There was a momentary halt in the advancing trend, but it was resumed later. Auburn stock also reduced its loss.

### LaMothe Returns to City to Head New Loan Company

Harry G. LaMothe, former manager of the Personal Finance Company in this city, has returned to Kingston and is opening a local office of the Upstate Personal Loan Company in the Broadway Theatre building.

Mr. LaMothe came to Kingston in March, 1933, to open a branch of the Personal Finance Company, remaining here as manager until May of this year when he was transferred to the sales department of the Finance Company with offices located in Boston. He worked for this company for a period of eight years, covering New England and New York, and tendered his resignation this July to take over the duties of manager of the local office of the new company, whose main offices are located in Albany.

During his stay in Kingston, Mr. LaMothe, a native of Fitchburg, Mass., where he received his education, became a leading figure in civic promotion and was elected president of the Junior Chamber of Commerce. He is also a member of the Kiwanis Club. He married a local girl, Miss Alice Fleper, and they have a 21-month-old son.

In a statement to a Freeman reporter this morning, Mr. LaMothe expressed his happiness in being able to return to the city where he had made many friends, saying that "it seems good to be back here where I am acquainted with so many people."

### About The Folks

Dr. R. P. Bayler, 270 Clinton avenue, is on his vacation. He will resume practice August 25.

Mrs. John D. Groves and son, Russell Groves, of West Hurley, were in Kingston, N. Y., on Saturday at the funeral of Mrs. William O. Dietrich.

Miss Mary Krenosloskie of 125 Highland avenue is spending a week on Long Island at the camp of Mr. and Mrs. H. McCabe of New York city.

Charles Nichols and family, Mrs. Annabelle Stanley, Walter Stanley and Miss Edith Edwards, all of Lake Katrine, returned Saturday from a week's stay at Silver Beach, Millford, Conn.

Master Donald Wellman, who has been spending 10 weeks with his grandparents, Mr. and Mrs. T. Joyce, of 213 Federal avenue, has returned to his home with his parents, Mr. and Mrs. Walter Wellman and sister, Joan, to Merrick, L. I.

### CANNING DEMONSTRATIONS TO BE HELD IN COUNTY

Mrs. Alice V. R. Marks, specialist in canning, will be in the county two days to give canning demonstrations. On Tuesday, August 10, Mrs. Marks will give a demonstration at the Phoenix Ski Club on the Woodland Valley road, beginning at 2 p. m. Wednesday, August 11, she will repeat the demonstration at the Hasbrouck Memorial Hall at Middletown. Mrs. Marks will demonstrate the canning of non-acid vegetables and a meat.

Mrs. Marks has had a vast amount of experience in this particular field and comes highly recommended. Her experience in teaching canning includes the use of all kinds of equipment. She enjoys showing how modern canning may be done under the most primitive conditions. Naturally she also enjoys using the most modern equipment. She believes, however, that women should be taught to use the equipment they have, so that the surplus foods of the summer may be safely and wholesomely preserved for the winter table.

This meeting is being held under the auspices of the Ulster County Home Bureau and is open to the public.

### THE JOINERS

### Egg Auction Banquet Tuesday

The annual banquet and meeting of the Mid-Hudson Egg Auction will take place at the Stuyvesant Hotel Tuesday evening, August 10, at 7 o'clock. Reservations can be made by calling the Farm Bureau Office in Kingston. Two features are expected to attract a large attendance. The first is the fact that a dividend of five cents per case shipped will be paid and the other is that Charles Urner of New York city will be the principal speaker. It is said Mr. Urner probably has more influence in the metropolitan egg market than any other individual. In addition to the speaker, a musical program will be provided and directors of the new fiscal year will be elected. P. Kaplan, president of the Auction, urges that all members attend.

### Two Outdoor Plays Wednesday Night

Highland, Aug. 9.—Presenting two outdoor plays on the lawn at Lakewood at 7 o'clock Wednesday evening, August 18, the August committee directed by Mrs. Harry Colyer will first give, "The Cameo Pin." This is a story of a woman with a very poor memory. Anna Noble, and she is portrayed by Shirley Hubbard. Agnes Noble, her daughter, who is always ready with helpful suggestions, Doris Coutant; Hattie Noble, a sister-in-law, Emily Miller; Mrs. Johnson, an easy going neighbor, Mrs. William Dodge; Old Aunt Mary, Miss Julia Van Keuren; Miss Jones, a clerk in jewelry department at Sterns, Mrs. Harry Colyer.

The second play, "Through the Rose Garden," concerns three students, Patty Shirley Hubbard; Grandmother Merriweather, Mrs. M. E. Maynard; Eglington, the maid, Mrs. George Randall; Mrs. David Torrence Brownlee, Mrs. William B. Taber; her maid, Miss Julia Van Keuren.

There will be music and refreshments in charge of the Brown Bread women. The tickets may be obtained during the morning at DeMare's fruit store or from members of the Ladies Aid Society.

The grounds present a natural setting for the plays and the novelty of the outdoor performance will attract many. Should the evening be stormy, the plays will be given in the lecture room of the Presbyterian church.

### 3 CREW MEMBERS MISSING AFTER PLANE CRASHES.

Hongkong, August 9 (AP).—Three members of the crew of a Chinese airline forced down at sea in a heavy fog were missing today as eight survivors, including two Americans, were brought to Hongkong aboard the British destroyer Thetis.

The plane's pilot, Edward S. Smith, formerly of Los Angeles, Calif., was taken to a hospital, suffering severe bruises and an injured hand.

The other American aboard, E. M. Walsh, an aviator employed by the Canton government, was not injured.

The eight were rescued at sea by a Chinese junk after Smith made a forced landing due to rain and fog on Chiang Point, 85 northeast of here. A wave upset the plane and broke off one wing.

### High Mount Man Gets 90 Days

Henry Judson, 45, of High Mount, was arrested at that place Sunday by Troopers Dunn and Wright on a charge of disorderly conduct. Arraigned before Justice George E. Smith, he was sentenced to 90 days in the Ulster county jail.

### 30 Days in Jail.

when you **ALKALIZE** WITH MILK

Cool, fresh milk has a definite alkaline effect. A glass in the evening...another in the morning...helps to clear your system of acid poisons built up by fatigue. The Bureau of Milk Publicity, Albany.

THE STATE OF NEW YORK

## National Guard Leaves Sunday For Pine Camp

The local units of the 156th Field Artillery, N. Y. N. G., left for Pine Camp about 9 o'clock Sunday morning following a field mass conducted by Chaplain William J. Guinan. Grouped with Battery A and Headquarters Battery, were the other outfits from Poughkeepsie, Newburgh, Middletown and Mt. Vernon.

It was estimated that over 2,000 artillerymen were at some time Sunday on the grounds of the armory on Manor avenue, as both the 156th Field Artillery and the 104th unit of the N. Y. N. G. assembled there.

The 104th Artillery stopped at the armory for a basket lunch on the way to the summer army maneuvers. About 350 men and 30 officers were in this battalion, which was in charge of Majors Kernan and Russell.

Saturday evening, the 105th Artillery of New York city stopped over at the local armory on its way home from Pine Camp.

The local units stopped for lunch at Middleburgh, and continued on to Middleville, a short distance above Little Falls, where the regiment bivouacked, continuing on to Pine Camp to arrive there today. A two-weeks' training session will be observed at the summer camp, and the units will return to Kingston on August 22.

Both the 104th and 156th regiments made the trip by motor convoy, station wagons and trucks being used to carry the men and haul the guns of each unit. Besides the firing batteries, the regiment will consist of a regimental headquarters battery, two battalion headquarters, complete medical detachment and quartermaster and service units.

Headquarters Battery and Battery A are members of the First Battalion which is in charge of Major R. Rosen of Poughkeepsie, with Captain Charles N. Behrens of Port Ewen, second in command.

## 13-Year Building Record Broken

Albany, N. Y., Aug. 9 (AP)—A thirteen-year-record of commercial building for the month of July was broken in upstate New York last month when plans for 147 projects involving \$2,364,931 were submitted to the State Department of Labor.

The project total exceeds the previous record, set in 1935, by 23 per cent, but is about 15 per cent below the number of plans submitted in June.

Seventy-six of the July plans call for new industrial buildings at an estimated cost of \$2,000,500. Fifty are for alterations to cost \$269,600 and the remainder are for elevators and stairs.

Counties include: Nassau county, 23 plans at \$185,100; and Westchester with 12 plans at \$110,200.

Construction in New York city is exempt from state supervision.

## What Congress Is Doing Today

(By The Associated Press)

### Senate

Debates Bonneville dam bill. Finance committee considers sugar legislation.

Wheeler committee opens inquiry into financial history of Virginian railroad.

Special committee studies government reorganization bill.

### House

Considers District of Columbia legislation.

Ways and means committee begins hearings on bill to plug tax loopholes.

Banking committee studies housing bill.

## Hoover to Pose For Soss Melik

Word was received from the west coast that Herbert Hoover is expected to sit for another portrait by Soss Melik in the coming month of October. It is probable that the former President will arrange for his sitting with Mr. Melik at the Waldorf Astoria in New York. The first portrait by the artist was brought here for reframing and will be shipped to Mr. Hoover shortly.

### Mettachonts Picnic

Mettachonts, August 9.—The Mettachonts picnic will be held at the Mettachonts hall on Wednesday afternoon and evening, August 18. The supper will be served from 5:30 o'clock. The menu will be as follows: Hot roast beef, mashed potatoes, gravy, cabbage salad, beans, succotash, tomatoes, cheese, bread, biscuit, butter, jello, cake and coffee. Music will be furnished by Clayton's Military Band of Ellenville. If stormy the picnic, including the band, will be held the next fair evening.

### Will Meet Wednesday

Albany, N. Y., Aug. 9 (AP)—Heads of state departments have been asked to meet Wednesday with the temporary salary standardization board to recommend pay scales and adjustments. The board, authorized by the 1937 legislature, is charged with allocating state employees to the proper salary grade in one of eleven classifications. Employee representatives will be given a hearing beginning August 23.

## NO "MONKEY" BUSINESS

Denying she taught rural students near Waynesburg, Pa., that humans came from monkeys, Mrs. Laura Ellis Marrs, shown above with her daughter, Ruth Lynette, 8, is trying to regain her teaching job. The school board is said also to have charged she beat pupils with a baseball bat and poker.

## FATHER AND DEATH'S CHILD

Dominick Doccassini, father of the baby born of a Caesarian operation on her dead mother, visits the child (above) in an oxygen tent in a Philadelphia hospital. The child, baptized Frances Mary, died Sunday.

## FLASHES OF LIFE SKETCHED IN BRIEF

By Associated Press

### Money Talks

High Point, N. C.—She was a comely young woman, arrested for drunkenness. But, oh what a hangover. In fact, she couldn't talk.

A hard shake by officers and her mouth opened. Out popped six one dollar bills and a quantity of change.

### Feathered Fans

Blytheville, Ark.—Fan-tailed peacocks are baseball fans here—and they know the game.

Usually the ball park's pet birds watch sleepily from fence perches as night games progress. Last night, however, when the stands cracked with the tradition at seventh inning stretch, (the players gaped at the peacocks.

The fowls had solemnly stretched their legs, spread their huge tails, then settled back in unison with the cash spectators.

### Jinx Party

Macon, Ga.—Superstition will be "double-dared" by Berna Arlette Smith.

Berna, planning a party for her 13th birthday Friday (which is the 13th) decided to have 13 guests, who will eat a 13-candled cake.

Just for an added flout to the flax, the cake will have the figure 13 embossed in icing.

### Sight-Seeer

Jefferson City, Mo.—They're not all after jobs.

Young John Gibler sat four hours in Governor Lloyd C. Stark's reception room. Finally the governor's attention was called to him.

"Have you filed your application yet?" he asked.

"What application?" Gibler replied. "Why, aren't you looking for a job?" Stark asked.

"Heck, no," said Gibler. "I've got more work than I can get done out on the farm. I just came in to get a first hand look at the governor."

### Sing, Gypsy

Ririe, Idaho.—You have to get up pretty early in the morning to get ahead of 70-year-old Henry Killian.

When Killian discovered two Gypsy women had fleeced him of \$10 he pursued them ten miles, espied them aboard a Snake River ferry boat, rowed after them in a skiff.

As he climbed aboard one of the women handed him the \$10.

## NEW PALTZ NEWS

New Paltz, Aug. 7.—Mr. and Mrs. William Kaiser and Mr. and Mrs. Harry Kaiser spent a few days last week with Mr. and Mrs. William Britt at Edge Water Park, New York city.

Mr. and Mrs. John Colwell, Jr., of New York city, will spend their vacation in town with his mother.

Mr. and Mrs. Charles Pallus have been entertaining Mr. and Mrs. Jean Daniels and son, Richard.

The Fire Department will hold another block party on Friday evening, August 27. In case of rain it will be held August 28.

From five bushels of potatoes planted April 10, by Roy Hasbrouck, during the week of July 26 they yielded him 60 bushels. Many of the potatoes weighed a pound a piece.

Mrs. Cora Lawrence, her mother, Mrs. George E. Johnston, and Mrs. Henry McCormick, spent Wednesday afternoon with the Rev. Donald Palmer and his mother, Mrs. Sarah Palmer, at Ridgebury, Orange county. In the evening they attended a church supper on State Hill, one of the churches of which Mr. Palmer has charge.

Mr. and Mrs. Louis Shutta visited friends in Ardona recently.

Mrs. Roy Newkirk, who has been quite ill, is up and around again.

Mr. and Mrs. William Kaiser have been entertaining their grandchildren, Alma and Richard Mathieson, of Modena.

Mrs. Dale Sutherland and daughter, Betty, were recent guests of Mr. and Mrs. John Denton at Modena.

Mrs. Jay LeFevre attended the Ladies' Day at the Twaitskill

Club on Tuesday. Mrs. Albert H. Chambers of Kingston was the hostess.

Mrs. George Mathieson was a visitor in Kingston on Wednesday.

Mrs. Ray Morris and son are spending a week at Atlantic City.

Louis Hinsberger called on Daniel A. Hasbrouck at the Polytechnic Hospital in New York on Tuesday.

Mr. Hasbrouck is improving rapidly and expects to be discharged within the next two weeks.

The Dutch Guild will hold a picnic meeting at the camp of Mrs. Howard Grimm at Williams Lake Thursday afternoon, August 12.

Miss Lena Smedes is entertaining Mrs. Ella Cranz, formerly of New Paltz.

Mr. and Mrs. J. E. Dodd and Albert Dodd have been spending a week in Montreal and Quebec.

Mr. and Mrs. George Dohy have returned to their home on Elling Avenue from a trip to Prince Bay, S. I.

Mr. and Mrs. Frank Rosa of Wurts avenue entertained their son, Vernon, Roanoke, and his wife over the week-end.

Karen DeWitt, daughter of Dr. and Mrs. Virgil DeWitt, is visiting her grandparents, Mr. and Mrs. Harry DeWitt, at Kerhonkson.

Miss Cornelia Duflois has been entertaining Mrs. E. M. Minnick, of Danvers, Ill.

Mrs. Andries LeFevre is spending a few days with Dr. Homer Stephens in Walden.

Mr. and Mrs. Martin Lee Dubs and Dr. and Mrs. Virgil DeWitt are enjoying a week cruise to Halifax, Nova Scotia.

There are approximately 47,500 licensed amateur radio operators in the United States.

## James G. Connelly Passes Bar Exams

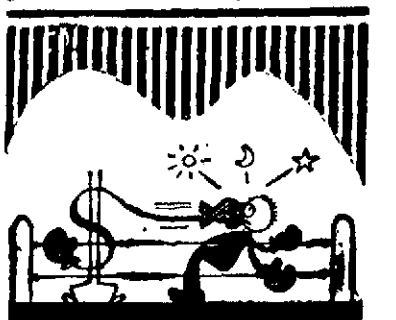

JAMES G. CONNELLY

James G. Connelly, son of Alderman and Mrs. James E. Connelly, of 65 West O'Reilly street, has been notified that he has successfully passed his bar admission examination.

Mr. Connelly received his early education at St. Peter's School, and prepared for college at Kingston High School, from which he was graduated in 1931. He received a bachelor of arts degree from Fordham College in June, 1935, and was awarded a bachelor of laws degree by Fordham University School of Law on June

15, 1937. Mr. Connelly is connected with the law offices of Walter L. Miller on Fair street.

The flintlock rifle remained in general use for nearly 200 years.

A CAR owner never knows when he's going to take it on the chin—for a financial knockout.

## ETNA-IZE

Let us fix you up with an Etna Comprehensive Automobile Policy, written to cover every insurable motoring risk.

## FULL OF THE OLD GINGER, AND FLAVOR-AGED

Here's a real ginger ale, delicately blended and finely carbonated. Pure, sparkling. Refreshing. Now, as fifty years ago, America's finest ginger ale.

**PERSONAL FINANCE COMPANY**

**THERE'S PLENTY DOING** when Bob Bullock's in the game! Follow him. (He's wearing the dark shirt.) Bob is one of the great No. 3's of polo—plays this key position with strategy, skill, and courage!

**RIGHT ON THE NOSE!** Consistent, accurate hitting makes Bob Bullock a dangerous scoring threat. Above, he rides an opponent out of play—at the same time makes a well-timed shot to the up-rights at blinding speed!

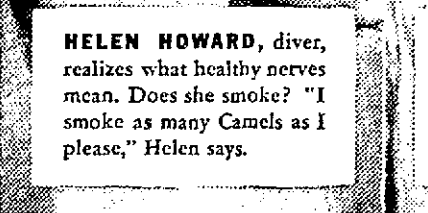

**CLOSE QUARTERS!** Bullock is famous as a hard-riding defense player too. Above, he's playing to retrieve the ball for his side. Like Lou Gehrig (the Iron Man of Baseball), and Glenn Hardin (World's Champion Hurdlers), Bob Bullock has a decided preference for Camels. He's smoked Camels for over a decade.

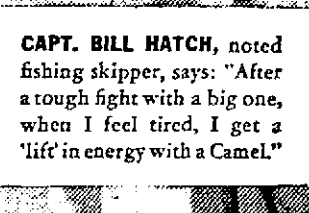

**HELEN HOWARD**, diver, realizes what healthy nerves mean. Does she smoke? "I smoke as many Camels as I please," Helen says.

**CAPT. BILL HATCH**, noted fishing skipper, says: "After a tough fight with a big one, when I feel tired, I get a 'lift' in energy with a Camel."

**AUCTIONEER.** "I work at a tense pace," says John M. Mitchell. "Jittery nerves? Not! My cigarette never gets on my nerves. It's Camel."

**NO JANGLED NERVES** for busy secretary, Miss Rosamond Morse says: "I can't afford jangled nerves! That's why I prefer Camels."

## Naturally Bob Bullock appreciates mild smoking

POLO enthusiasts will agree with Mr. Bullock that it takes healthy nerves to play polo—nerves that don't fail in a pinch. Bob Bullock says: "Camels deserve the blue ribbon for mildness. I've smoked Camels every day for years. They never jangle my nerves!"

Mealtime (right) finds Bob enjoying Camels—for digestion's sake. "Smoking Camels at mealtimes and afterwards adds a world of enjoyment to eating," he says. "I'd walk a mile for a Camel!"

For mildness, flavor, and fragrance—make it Camels! Camels costlier tobaccos are naturally mild, fine-flavored, and fragrant.

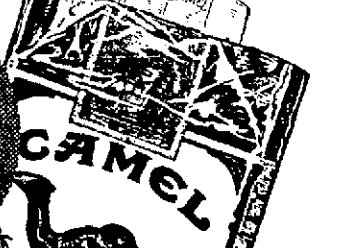

## Enjoy Benny Goodman's Swing Band for a full half-hour!

Tune in Benny's popular swingers—hear his famous trio and quartette. Tuesdays—8:30 p.m. E.S.T. (9:30 p.m. E.D.S.T.); 7:30 p.m. C.S.T.; 6:30 p.m. M.S.T.; 5:30 p.m. P.S.T., over WABC-Columbia Network.

## TOBACCO EXPERTS SAY

Camels are made from finer, MORE EXPENSIVE TOBACCOS... Turkish and Domestic... than any other popular brand!

**COSTLIER TOBACCOS**

# Camels never get on your Nerves!

## ARMY PRACTICE

This is the season of military maneuvers. From now until mid-November most of the world's armies, for long or short periods, will be testing their mobility and organization. Germany plans its largest maneuvers since the World War. Russia will watch its army go through field exercises, doubtless with mingled emotions caused by the recent purge of the Red Army.

In our own country, the army-testing business will involve several different features. First will be the mobilization of about 56,000 regulars, National Guardsmen and reserves from 16 western states in four concentration areas during August. In September, there will be field tests of the proposed new division set-up, with 13,000 regulars, drawn from all over the country, and assembled in Texas as a complete division for the first time since the war. Since this may lead to reorganization of the army from top to bottom, the Texas exercises will be watched with keenest interest by all concerned.

There is still divided opinion about the style of future warfare, whether the mobile, streamlined army is the best type and whether it could dislodge trench warfare. Some experts hold for strategy, accurate and quick movement. Others maintain that nothing in Spain or elsewhere has clearly shown that swift, mechanized forces could change the situation created by trench war. The autumn maneuvers may bring the argument nearest settlement.

## THE FAILURE OF WOMEN

William Baird of the University of California is getting a good deal of publicity by his strictures on the incompetence of women at housework. Young Mr. Baird is trying to work his way through college by scientific housekeeping. In the course of his studies of step-saving, time-saving and so on, he has come to the conclusion that women fail in housework because they are slaves to tradition. They fail to apply to housework the same principles which they apply successfully in the new fields they have invaded.

There is undoubtedly some truth in the complaint. In processes, women do move slowly, though there is a tendency now, in cities, at least, not so much to cling to the old kitchen gramma used as to dash out to buy the latest gadget, especially if it's waterless or fireless or cooks a whole meal on one burner, and to buy it with unprecedented haste and joy if it has wheels going round.

But, seriously, there are sometimes deep reasons for things women do. When a young woman begins to keep house she soon finds she must learn to do quickly and mechanically most of her routine tasks. She cannot hold her mind on every job every day and keep sane. Along comes someone with a new process. But by this time she is swift and sure at the old one and does not wish to start all over again. The individual woman might even be right about this. But teach it to the young ones, Brother, if you're sure it's worth teaching. That's the way the world moves.

## SAFEST LINER.

The United States Maritime Commission has called for bids for building a vessel to replace the Leviathan. The new ship will be much smaller than the Leviathan, however, since the commission sees no reason for starting costly competition with the Normandie and Queen Mary. The design calls for a ship slightly larger than the Manhattan and Washington, but in that general class. It is to be a combination

mail, passenger and cargo steamship, with a tonnage displacement of 34,000 tons. Its speed will be about 22 knots (nautical miles per hour). There will be accommodations for 1,200 passengers and a crew of about 630.

The chief distinction of this vessel is the plan to make it "the safest ship on the seas." That was said of the Titanic, when she set out on her tragic maiden voyage. But much has been learned since then, from the Titanic disaster itself and from such other ill-fated vessels as the Morro Castle and the Mohawk. As designed, any three compartments in the hull can be flooded in an accident without endangering the ship. There will be motor-propelled and radio-equipped lifeboats. The ship will be made of fire-resisting materials throughout. All the latest safety devices will be included. Safety and comfort first, speed and size last. These things sound fine to the voyager who likes the sea trip and can get along without the superlative luxuries.

## HAY FEVER.

While the injection of pollen extract to help hay fever definitely cures a percentage of cases and relieves others, there are still a large number of cases who get no relief by this method.

Thus when the hay fever season arrives there are always a great many sufferers who are looking for immediate relief from the distressing symptoms of hay fever. Living in a room for a number of hours a day which filter out all pollen, gives considerable relief. The use of preparations containing ephedrine (adrenalin), sometimes combined with ephedrine (the Chinese drug) shrink the lining membrane of the nose, make it less boggy, and give relief sometimes for hours.

Another method is that whereby the pollen in a room is attracted to an electrical contrivance and the air rendered free from pollen irritation.

Another method of obtaining relief is by what is known as ionization—direct application of electricity to the lining of the nose. Some research workers report great success by this method, and others, while less enthusiastic, state that ionization is a valuable help to other accepted methods.

Drs. Samuel W. Garlin, and Samuel M. Pearl, New England Medical Journal, give a first or early report, covering six months' experience in the treatment by ionization of 48 cases of hay fever, asthma and chronic head colds. Immediate and complete relief from symptoms was noted during the active stage of the disease. Only two of 35 patients with head colds and hay fever failed to obtain relief. In 20 asthma patients both with and without hay fever, relief was obtained in all but two.

The change in the appearance of the lining of the nose from a sticky, pale, boggy, swollen and water-logged condition, to a healthy appearance was observed within four to six days. The effect of the ionization is to render the lining of the nose more normal thus enabling it to better withstand pollen or other irritating substances or organisms.

The point then is that when injecting of pollen has failed to prevent hay fever, ionization may be added to the other methods of relief.

## TWENTY AND TEN YEARS AGO

Aug. 8, 1917.—Mayor Palmer Canfield reappointed John E. Mahar, Frank Kaufman, Dr. Fred Huhne and Charles L. McBride as members of health board.

Dr. Van Lee Cowan of Minneapolis, Minn., and Miss Mildred Louise Deyo married at home of bride's parents, Mr. and Mrs. Fred Deyo, on Pearl street.

First submarine chaser built at the Hiltbrant shipyard at Connelly was successfully launched.

Aug. 9, 1917.—The Donovan boatyard leased part of dock front of Newark Lime & Cement Company for a boatyard.

Gilbert W. Terpening and Miss Rosanna Kendrick of Port Ewen married.

Julian Canfield and Miss Margaret Jeannette Little married.

Aug. 8, 1927.—Death of Mrs. William S. Van Gansbeek of Foxhall avenue.

The Eagle 51 U. S. N. gunboat, docked at Kingston Point overnight.

John S. Rosenkrans, widely known doctor, died at his home in Gardiner.

Louis Ferrantino, 6, who had been shot through head when a revolver being cleaned was discharged, died in Benedictine Hospital.

Aug. 9, 1927.—Harry Tenhagen died in Rosendale.

Health board heard of proposed new industry for Kingston—that of raising white rats for hospitals and laboratories, but referred the request to a committee to investigate the proposition.

William Keenan of Veteran seriously hurt when an auto struck wagon in which he was riding.

John B. Meyer died in Connelly.

There are national forests in 37 states.

## FLAME TRAIL

BY MARIE DE NERVAUD

SYNOPSIS: Kay Cranion of the Lazy Nine impulsively hires Ted Gaylor, a jobless puncher. He helps her fight Josh Hastings, a "friendly" neighbor who wants Kay and her ranch. Ted and Scrap Johnson, a couching who molests Kay, shoot it out, wounding each other. Hastings sneaks up and kills Scrap with Ted's gun. Ted is arrested and tried for murder, but Kay stops the trial by technical protest. Ted escapes and rescues Kay from a cellar where Hastings had locked her. Back at her ranch, she stays hidden, waiting to turn up at Ted's second trial when he hopes to prove Hastings' villainy.

Chapter 47  
Kay And Marion Meet

"THEY took Tom Runyon away from the trial to go down and investigate the fire," said Shorty. "They did!" Kay suddenly remembered Tom Runyon's excited conference with the two men she had seen come up to him, when she had been running away from him and Josh Hastings. "Sure," Shorty leaned forward confidentially. "Say—it looks like that Runyon bird's almost as good as he says he is!" He paused, and fixed Kay with a speculative eye. "You've sure got me guessing, Kay! Here I thought you were kind of taken with this Gaylor guy. Then when it came out at the trial that you'd given away his hiding place to Tom Runyon, I thought Runyon was the lucky fellow. Now, hang it all, if you don't seem a heap more stirred up about what's happened to Gaylor than to Runyon. Women sure are the beatin'!"

Shorty finished his tirade without noticing that Kay's eyes were fixed on him in a sort of trance. "What was that you said, Shorty?" she demanded. "Why, I was saying that I thought you liked—" "No," Kay interrupted. "I mean about the trial—about me giving away Ted Gaylor's hiding place to Tom Runyon?"

"Kay, that's no news to you, is it?" Shorty asked. "How else could Runyon have reported it to Zeke Farley?" A great roaring in Kay's ears almost drowned out Shorty's voice. Suddenly the answer to Ted's puzzling behavior flashed before her. How else could he have acted, if he thought she had been the one to betray his hiding place?

"But if Tom Runyon testified that," she protested wildly, "surely he told them that I was delicious and didn't know what I was saying! To my knowledge I certainly never told anyone that I had seen Ted in the shack up there."

Shorty let out a low whistle. "So that accounts for it!" He wrinkled his forehead. "Nope. Nothing was said about your being out of your head. I got the whole thing from a fellow who was there."

With a moan, Kay buried her face in her hand. For the moment, she hated Tom Runyon even more than she did Josh Hastings. She could kill him for having given that false impression to Ted! "Shorty!" Kay bit her lips in an effort to keep her voice steady, and her eyes failed to meet Shorty's sympathetic ones. "Kind of think I'd like to be alone. Thanks for the supper."

"That's O.K.," Shorty shifted uneasily from one foot to the other. He made one or two false starts in an effort to say something, then abruptly took his leave.

## Hunting For Ted

THE gray light of dawn was stealing over the mesa when Kay let herself out the cabin door and ran down to the corral. Whistling softly for Flicker, she held his head close to a moment, to suppress his joyous whine. Then she saddled him and headed for the mesa, giving a wide circle to the bunk house.

After a sleepless night, Kay had arrived at one inescapable conclusion. Whatever the consequences, she couldn't let Ted get away, carrying with him the idea that she had betrayed him.

The only clue she had as to where he might find him was his statement that he was going to see if Marion Howell needed him.

In spite of her misery, Kay's heart lightened as it never had before at the thought of Marion Howell. In this new light on Ted's behavior, she saw the whole situation like a clear pattern, and her intuitive certainty that Ted really did love her reassured itself.

During the interminable night she had fitted all the puzzling pieces of the pattern together—Ted's gruffness and bitterness, after the first moment of abandonment when he had kissed her, his remarks, so meaningless before, that he couldn't trust her to know he had gone to Marion; the certainty that Ted's feeling for Marion was that of a grateful friend.

"How like him," Kay thought, "to risk his own safety for friendship as well as for love!"

A tender smile lighted her face for a moment. She gave Flicker

## Let's Play a Game

"We stop playing not because we grow old; we grow old because we stop playing," said the philosopher Herbert Spencer. Games afford a chance for wholesome play.

A new Cornell bulletin suggests games for small groups, such as families, 4-H clubs, local home bureaus, and neighborhood clubs. With slight changes, many of them are suitable for larger groups. Suggested are active games, quiet games, "socializers", and homemade games, enough variety to fit almost any group.

Office of Publication  
 State College of Agriculture  
 Ithaca, N. Y.

Please send me a copy of the bulletin, "Games for 4-H Clubs, Home Bureaus, and Groups in the Home." E-369, which the Kingston Daily Freeman has arranged to have sent to its readers who fill out this coupon very plainly, preferably in ink:

## New Seaplanes Gulp Enough Gas on 1 Hop To Run Car 5 Years

By DEVON FRANCIS  
 (AP Aviation Editor)

Seattle, Wash. — When the world's biggest airplanes start droning across the Atlantic next year, they will be powered with motors gulping enough gasoline in a single crossing to supply the average motorist for five years.

Only with the aid of such steel titans will airplanes of even the most advanced design make good the conquest of the sea in the modern manner.

Rated at 1,500 horsepower each, four of these great motors will be fitted into the leading edge of the airplane wing. Collectively, they will burn 190 to 200 gallons of gasoline an hour.

Conceived Before War  
 The engines for the two-decked Boeing flying boat, being built here, were first conceived in the era of the Titanic, the steamship that could not sink but did. European engineers actually built grandfathers of today's two-row radial.

It was not until after the World War, however, that the two-row radial was manufactured commercially. Today, the culmination of a quarter century of engineering is a power plant shaped like a star and developing one horsepower for each one and one quarter pound of weight.

Unlike automobile engines which are "in line" or V-shaped, the radial engine for aircraft has cylinders which spread out from the crankcase like the spokes of a wheel. Piston rods are attached to a sleeve sheathing a single main bearing. Progressive explosions push the bearing around the circle it describes in putting the airplane propeller in motion.

Ahead Of Times  
 To create a two-row radial engine, aeronautical engineers, in effect, welded two motors together, one behind the other.

It was not that simple, of course, and when they tried it out the larger of the two-row radials were too many jumps ahead of the airplane. Airplanes did not need that much power then.

Today, both motor factories are producing radial engines of tremendous power for commercial aircraft, and the armed services

are doing experimental work on 2,000-horsepower motors.

Vibration Reduced  
 Today's twin-row power plant consists of 14 cylinders, 7 in each row. For best performance, propellers are geared down to travel only 66 to 75 per cent as fast as the motors.

With these new motors, the cabin vibration felt by the passenger on a transport plane is reduced measurably, and because the motors run more smoothly they have longer lives.

A knotty problem in building big transport planes is "drag," the reduction in speed caused by projecting surfaces. In engineering the twin-row, manufacturers were able to reduce the frontal area of the motor, and therefore the drag, from 20 to 35 per cent.

BLUE MOUNTAIN  
 Blue Mountain, Aug. 7.—Sunday school at 10 a. m. Morning worship at 11 by the pastor, the Rev. E. C. Dursey. Young people meeting at 8 p. m. Mrs. Harry Freigh will be the leader.

The chicken supper which was held on August 4 was largely attended.

Mrs. and Mrs. Andrew Baron are proud parents of a daughter born on August 1. She has been named Elaine Mary.

Mrs. Floyd Myer and son, Roger Edward, have returned home from the Benedictine Hospital. Mother and son are fine.

Mrs. Harry Freigh is entertaining her grandmother, Mrs. Annie Myer, from Schenectady. Mrs. Myer will celebrate her 88th birthday on Sunday, August 8.

Mr. and Mrs. Jessie Wolven called on their daughter, Mrs. Floyd Myer, and son on Tuesday evening.

Mr. and Mrs. Leonard White from Quarryville spent Thursday evening with their parents, Mr. and Mrs. Peter Moosa.

Mrs. J. D. Post spent Thursday evening with Mr. and Mrs. Melvin Schoonmaker.

BINNEWATER  
 Binnewater, Aug. 9.—Mr. and Mrs. James Hunt of Masspeh, N. Y., have returned to their home after spending several days at the home of Mr. and Mrs. Arthur B. Freer.

The Ladies' Auxiliary of the Binnewater Vol. Fire Co. will hold a card party at the firehouse on Tuesday, Aug. 10. Other games will also be played. There will be a silver collection.

C. Klippel and son, Charles, of New York city, are vacationing at their home here.

Mrs. Dorothy Craft and friend, Miss Fry, of New York city, are spending several days with relatives here.

## U. S. AIR MAP WILL COST \$30,000,000

### To Be Composite of Two and Half Million Photos.

Washington, D. C. — Uncle Sam is having his picture taken—the largest photograph in the world. When it is finished, some years hence, it will cover an area of more than 3,000,000 square miles. This aerial photograph was begun in 1934 and already is nearly one-third finished. It is the most gigantic photographic effort in the world's history. It likewise will be the most expensive photograph in all history, costing, when completed, about \$30,000,000.

The survey is being made by three government services—the agricultural adjustment administration, the soil conservation service and the forest service. The approximately 2,500,000 "shots" will be assembled into a composite map.

AAA Covers Most Territory. The AAA has photographed, or has contracted for photographing this summer, a little more than 1,000,000 square miles. The soil conservation service is nearing completion of aerial mapping of 400,000 square miles, and the forest service has photographs of 30,000 square miles.

The project is so large that it probably will take fifty or more aviation companies, many of them flying several ships, four or five years to complete the photograph. A large staff of government workers is assembling the pictures and charting maps.

When completed it will picture every town, crossroads, farm home, stream and tree in the United States. Every hill and every valley will be located and their height or depth charted. Even the type of soil will be recorded.

The pictures are taken from a uniform height—14,000 feet—by a special camera. They will "overlap" at least 30 per cent for ease in fitting them together—so that every point will appear in at least two pictures.

Pictures Cost \$6.35 Each. Each picture covers an area of approximately four square miles. The "net" area, allowing for duplication, is about one and one-half miles. The government pays an average of \$4.25 per square mile for pictures, so that each costs about \$6.35.

This, however, is only the initial cost. Field crews take the photographs, survey the ground, establish locations of points shown and record slopes. They note types of soil. Draftsmen and other laboratory experts complete and assemble the maps in Washington.

The photographs and maps are used for different purposes by each of the three agencies conducting the survey.

The AAA uses them for checking farmer compliance with its crop program. The size of each farm and of each plot of ground on it are accurately computed and noted. Each photograph is a farm on a miniature scale.

More detailed information is required by the soil conservation service. Drainage, slope and types of soil are recorded for aid in plotting terraces, contour plowing, dams and other soil erosion control work. Laboratory and field work costs far more than the original photograph.

### Reduce Your Body Girth and Lengthen Your Life

New York.—Statisticians of the Metropolitan Life Insurance company, in a report entitled "girth and death," declare that body girth and length of life vary inversely one with the other. They term establishment of the fact one of the most valuable contributions to life insurance statistics.

Distinctly obese men, those who are 35 per cent or more above the average weight, the statisticians find, have a mortality one and a half times greater than that of men of average weight.

Higher than average mortality prevails among overweight persons generally. Men from 25 to 34 per cent overweight have an "excess mortality" of 45 per cent, while among those 15 to 24 per cent overweight the excess mortality is 30 per cent.

After maturity, underweight is a favorable factor for longevity. The best weight for long life varies according to age as follows, according to these statistics: up to thirty, slight overweight; thirty to thirty-nine, average weight; forty to forty-nine, slight underweight; ages fifty and over, an appreciable degree of underweight.

## BROOKLYNITE HELD IN PARIS

Jean De Koven, 22 (above), a Brooklyn dancer, disappeared two weeks ago in Paris, says her aunt, Ida Sackheim, who reports she received a ransom demand for \$500. She informed Paris police.

## NATIONAL PARKS DO THRIVING BUSINESS

### Increase in Revenues and Attendance Reported.

Washington.—Business is good in the national parks this year, according to reports submitted to the national park service by park superintendents throughout the country. Almost without exception they show substantial increases in revenues for the current year to date over a similar period of last year.

The greatest percentage rise was at Crater Lake National park, Oregon, the receipts of which to date this year show a 63.3 per cent increase over the same period in 1936. Not far behind were Glacier National park, Montana, with a 60.6 per cent increase, and Lassen Volcanic National park, California, with a 52.1 per cent rise.

Growing popularity of the cliff dwellings at Mesa Verde National park, Colorado, brought an increase of 44.9 per cent in park receipts.

A larger total of revenues was received at Yosemite National park, California, than at any of the other parks which are experiencing greater prosperity. An additional \$56,048.13 above last year's total brought this year's figure up to \$494,069.64.

The same trend was evident at Yellowstone National park, Wyoming, where a 28 per cent upturn over last year's receipts was registered. The total this year to date is \$352,718.87.

Some of the most prosperous parks are underground. During one month alone the net earnings of Carlsbad Caverns National park, New Mexico, amounted to \$11,978.35. Park revenues for the year to date totaled \$208,421.35, an increase of 34.7 per cent.

A good year is also reported at Wind Cave National park, South Dakota, where revenues are running 20.7 per cent above last year, and at Mammoth Cave National park, Kentucky, where the number of paid admissions to the cave is about one-third higher than in 1936.

## King Zog's Comely Sisters Help Kill Old Veil Custom

By ANDRUE BERDING

Tirana, Albania (AP)—Three young, unmarried princesses are the advance guard in the movement led by their brother, King Zog, to emancipate Albanian women from the veil and other Turkish customs.

Just before the decree unveiling the women was issued, the princesses, Mysen, 27; Rubije, 26, and Maxhide, 25, journeyed from here to Scutari, in the north, without veils and appeared in public and at social events in European clothes.

It was partly because of the example thus set by the princesses that the unveiling reform, which has met opposition in other countries, has been in effect in Albania for three months without incident. Women as well as their menfolk apparently are reconciled to the change.

The princesses are determined to continue their work for the greater freedom of the Albanian women.

They travel about freely. They are expert horsewomen and sometimes appear in full uniform as cavalry officers in Albania's one crack cavalry regiment. When they ride in uniform they receive the military salute and return it. The salute in Albania is made with the right arm and hand across the chest, the palm downward.

The princesses do not perform any military duties in the regiment.

The three princesses are uniformly pretty, and had they not been princesses, certainly would have been married by this time. They talk several foreign languages, having studied in Switzerland. Occasionally they go to Vienna.

## "Ball" Lightning Said to Be Harmless to Humans

"Ball" lightning has baffled explanation, declares a writer in the Indianapolis News. That it occurs can not be doubted. A German work on the subject, by Dr. Walther Brand, contains an elaborate discussion of 215 cases reported by careful observers. Such lightning occurs during thunderstorms in the form of a small luminous ball or pear-shaped body, averaging a few inches in diameter, which either moves freely in the air or travels along objects as if attached to them.

The ball may be visible only an instant or may remain for several minutes. Its appearance often but not always is preceded by an ordinary flash of lightning. It is accompanied by a hissing or humming sound. It disappears either silently or with a light crack or with a loud explosion, and leaves behind it a sharp-smelling smoke or mist. In some cases several balls are seen at once.

The unattached balls display a fondness for entering houses, not only by way of doors, windows and chimneys, but also through small cracks. They are said to be harmless to human beings, whom they seem to avoid as they avoid all other good conductors. The attached balls, on the other hand, travel along good conductors, and cause serious burns if they touch the human body.

## Wind Carves Profile of Roosevelt in Rock

Elkader, Kan. — President Roosevelt, who has sponsored Federal appropriations for the control of wind erosion, has been immortalized in sculpture by the wind.

A large rock formation in a field near here has been worn away by the wind until it resembles his profile. The chin tilts slightly upward, a position frequently assumed by the President.

The formation is part of an outcropping of rock in Beaver Creek valley. It is approximately 60 feet high.

Princess Maxhide

Princess Rubije

They have three older sisters, two of whom are married and one of whom is a widow.

## MODENA

Modena, Aug. 9.—The Ladies' Aid Society of the Modena Methodist Church conducted their regular monthly meeting Thursday afternoon, Aug. 5, at Mrs. Emory Conklin's home north of Modena village. Mrs. Sylvester, a summer guest at the Stitzen boarding house was present and took pictures of the Society groups, which she will show in movie form at the Hasbrouck Memorial Hall on Thursday evening, August 12. At this time Mrs. Sylvester will also show reels of other enactments and scenes which she has taken of characters local and otherwise. Other features, not quite so personal, will be shown of the coronation in England, as well as comic pictures for the entertainment of the younger set. Admission will be free, and everyone is welcome. Refreshments of ice cream, cake and soda will be on sale. The quilts, which members of the Ladies' Aid Society have completed will be on exhibition at this time. The quilts were made for sale at the annual Church Fair, scheduled for October 25, in the Hasbrouck Memorial Hall. During the business session of the current meeting the following activities were decided on. On Thursday, August 19, the members of the society with their families will picnic at Rifton, leaving this village at 11 o'clock. Members of the society will assist in the serving of the annual clam bake given under the auspices of the Official Board of the Methodist Church on Thursday afternoon and evening, August 26. Clam chowder sale will be conducted on September 15, when home made bread and biscuits may also be procured. All orders must, positively be in the hands of the committee on the morning of Wednesday, Sept. 15, in order that disappointment be avoided in filling orders. The committee in charge has been appointed as Mrs. Ransel Wager, chairman; Mrs. Wygant Courter, Sr.; Mrs. Hallock Harris; Mrs. Wilbur Williams; Mrs. Lillian Rhodes; Mrs. William Doolittle; Mrs. Theodore Ross; Mrs. Myron Shultis; in October, the ladies plan to serve a turkey supper with Mrs. Ransel Wager as chairman of the committee in charge, assisted by Miss Emma Ward, Mrs. Wygant Courter, Mrs. Hallock Harris, Mrs. Cornelia Taylor, Mrs. Lillian Rhodes; Mrs. William Doolittle; Mrs. William Decker; Mrs. Myron Shultis; Miss Mary E. Ward, with the assistance of the remaining members of the society. Those present at Thursday's meeting were Miss Emma Ward, Mrs. William Decker, Mrs. Hallock Harris, and grandson, Floyd Paltridge; Mrs. Wilbur Williams, and daughter, Louise; Mrs. George Hartshorn; Mrs. Lillian Rhodes; Mrs. Myron Shultis; Mrs. Cornelia Taylor; Mrs. Anna Miller, the Rev. and Mrs. Philip Solbjor, Mrs. Floyd Wells, and daughters, Jean and Elizabeth; Mrs. Charles Lewis, and son, Mrs. Ransel Wager, Mrs. William Doolittle, Mrs. Sylvester, and son, Edwin, (visitors) and the hostess, Mrs. Conklin. Mrs. Harris, president of the society, presided, and the Rev. Philip Solbjor offered prayer. Reports of the various departments made and a social time enjoyed by those in attendance.

Mrs. George Hartshorn entertained at her home near Modena, Friday evening, officers of the Lake Katrine, Clintondale, Asbury and Plattkill Granges. Games were played, musical selections given and a picnic supper served. Those present were George Salle, Master of Asbury Grange; Mrs. Louise Runson, Lecturer of Lake Katrine Grange; Miss Dorothy Simms, Lecturer of Plattkill Grange; Mr. and Mrs. William Dahrel, Mr. and Mrs. Andrew Montrola, and family, William Enbricksen, Mrs. Emma Cole, George Runk, Mrs. Cora Rhodes, Miss Irene Sickler, Mrs. Elsa Ackhart, and daughters, Dorothy and Louise, and the hostess, Mrs. Hartshorn, who is secretary of the Clintondale Grange.

Deputy Sheriff Fred Groene, and friend, William Patterson, of New York city, on their way to Woodstock, saw the overturned car and with the assistance of a passing automobilist assisted the occupants to get out. Groene said that the men appeared to have been dazed by the shaking up they had received, but were apparently unhurt. The car had apparently turned over completely when it left the road as the damage—amashed running board, broken window glass, etc.—was to the right side, which lay uppermost. The car was hauled back on to the road and the men continued on their way.

Port Ewen, Aug. 9.—A special meeting of the Ladies' Auxiliary of the Port Ewen Fire Department will be held in the firehouse this evening. All members are urged to be present as arrangements will be made for the lawn party which the firemen will hold on September 1.

The Ever Ready Club will enjoy an afternoon party at the summer camp of Mrs. H. C. Jump Tuesday afternoon. The weekly practice of the Rifle, Drum and Bugle Corps will be held this evening. Mr. and Mrs. A. H. Short spent Sunday with Mrs. Short's mother, Mrs. Frank Wood in Ellenville.

Ruin or damage by erosion of 100,000,000 acres of soil in the United States is blamed by the government on faulty use of land.

California is reducing a 10-mile road to 5 miles by cutting out 222 curves.

## MOTHERS FIX LAD'S HOME

Lila Nelson (right) weeps despondently after learning to leave her son, Donald Horst, two and one-half, in the home of his foster parents, Mr. and Mrs. Otto Horst of Chicago. Agreement was reached in an attorney's office.

## Escape Injury As Car Overturns

A car containing three men from Astoria, L. I., slipped on the Plank Road, between the Haines and Kelly places, about 10:30 Saturday night, went off the road, down an embankment and landed on its side.

Deputy Sheriff Fred Groene, and friend, William Patterson, of New York city, on their way to Woodstock, saw the overturned car and with the assistance of a passing automobilist assisted the occupants to get out. Groene said that the men appeared to have been dazed by the shaking up they had received, but were apparently unhurt. The car had apparently turned over completely when it left the road as the damage—amashed running board, broken window glass, etc.—was to the right side, which lay uppermost. The car was hauled back on to the road and the men continued on their way.

Lila Nelson (right) weeps despondently after learning to leave her son, Donald Horst, two and one-half, in the home of his foster parents, Mr. and Mrs. Otto Horst of Chicago. Agreement was reached in an attorney's office.

## Republicans Held Outing on Sunday

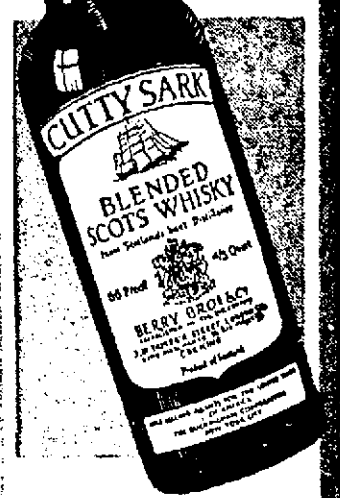

The annual outing and clam bake of the Eighth Ward Republican Club was held on Sunday on the farm of Pratt Dolce at Lake Katrine and was largely attended. The guests of the club were Mayor C. J. Heiselman, Senator Arthur Wicks, Superintendent David Conway of the Board of Public Works, Alderman Feyer and Supervisor Kelsch of the Eighth Ward. The day was spent in playing softball and swimming and bathing and about 1 o'clock the bake was served. The bake was free to the members of the club and the guests and was enjoyed thoroughly by all who attended.

Copies of Zoning Law. Copies of the city zoning law as amended recently have been received by City Clerk E. J. Dempsey and are on file at his office in the city hall.

### Midsummer Bride

MRS. M. S. KEARNEY

Mrs. Maynard Skinner Kearney, the former Miss Anne Bellows, who was married in Woodstock on Saturday. She is the daughter of Mrs. Emma Bellows and the late George Bellows. Her husband is the son of Mr. and Mrs. George F. Kearney of Spuyten Duyvil.

### Students to Attend Goldman Concert

The concert of the Goldman Band in Prospect Park, Brooklyn, this coming Thursday evening will be attended by the entire student body of the summer school of the Ernest Williams School of Music. The students will leave from Saugerties where the school is holding its seventh summer session.

In honor of this event the Goldman Band will play a march written by Miss Ethel Grovet of Valley Stream, L. I., a first year student of the Williams School. This march was awarded first prize in its division of the composition contest held by the Williams School in Town Hall on May 29, by unanimous decision of the judges, Percy Grainger, George Barrere, Wallingford Riegger, and Pierre Heniot.

Miss Greer has titled her march "Frankened" in honor of Frank Elsas, Leonard Smith, and Ned Mahoney, popular cornet soloists with the Goldman Band and graduates of the Ernest Williams School.

### Farewell Supper Party

Mr. and Mrs. Harold Styles of Main street entertained at Watson Hollow Inn last evening at a farewell supper party for Mr. and Mrs. Eugene Tetzel of Lenox. Court who left today to take up their residence at Greenfield, Mass. Dr. and Mrs. B. D. Dwyer, Mr. and Mrs. Alfred Schmid, Mr. and Mrs. James Betts, Jr., Mr. and Mrs. John B. Sterley and Mr. and Mrs. Irwin Jennings were present.

### Kingfield-Oellrich

Mrs. Philip Fitz Gerald of W. Pierpont street, announces the marriage of her sister, Miss Mary E. Kingfield, to Albert Oellrich on August 7 in Jackson Heights, L. I. The couple will make their home at Jackson Heights.

Mr. and Mrs. Thomas H. Clearwater of New York City spent the week-end with Mr. Clearwater's father, Ralph D. Clearwater, of Washington avenue. They have just returned from a month's motor trip to the Pacific coast. Their tour included the Park Hills, Yellowstone National Park and San Francisco.

Harry Pierce, left town on Sunday to spend the week in the Adirondacks. They will return on August 17.

Mr. Bigelow's "At Home" Invitations have been issued by Pauline Bigelow of Malden for his annual "at home" party to be held at the Bigelow home, 175 Madison street, on Friday, October 8.

Miss Dorothy Battenfeld, daughter of Mr. and Mrs. Henry Battenfeld of Hurley, and a student at the Vassar Hospital Training School for Nurses, will return to her home tomorrow for her summer vacation.

Dr. and Mrs. Spencer L. Dawes, of Pine street, are visiting at the home of their daughter and son-in-law, Mr. and Mrs. William L. Lanning, of Owego.

Miss Esther Davis of Yonkers was a weekend guest of Mr. and Mrs. Joseph L. Kramer of Emerson street.

### HOMEMAKING DEPARTMENT OF ULSTER COUNTY FAIR

Section 11 of the Homemaking Department at the Ulster County Fair, of which Miss Everice Parsons is chairman, will contain exhibits of baking skill. It is the intention of the fair to have a contest in the art of cake baking, prizes may be won by entering the following: Angel, one loaf, coconut, two layers, chocolate, two layers, (white cake frosting), fruit filled, two layers; solid chocolate, one loaf, spler, one loaf, sponge, one loaf. In the cookie class, Crullers, one-half dozen, molasses, one-half dozen, sugar, one-half dozen. Judges will be appointed prior to the exhibition, so volunteer tests may not apply, since confusion is so doing.

### WILBUR-EDDYVILLE PARISH CARNIVAL

The ninth annual carnival of the Wilbur-Eddyville parish will be held on Cutler Hill, Eddyville, on Wednesday evening. Many new, beautiful and interesting features have been introduced this year. An electric amplifier has been installed to carry the music of the orchestra, and for the announcements. The dance platform will be on the Mooney lawn.

### BAER'S ORCHESTRA TO PLAY FOR CORNELL BLOCK PARTY

Cornell Hose Co. will sponsor a block party on Abel street on Friday evening, August 20.

It was announced this morning that Roger Baer's orchestra had been hired to furnish music for the occasion.

### Girl Scout Encampment

New York, Aug. 9 (AP)—Awed by their first glimpse of New York's skyline, 23 girl guides arrived today aboard the Queen Mary for the International Girl Scout Encampment at Camp Andree, Biltmore Manor, N. Y. The girls, each representing a different European country, were accompanied by Mrs. Mark Kerr, National Commissioner of the International Association, and Mrs. Elizabeth Fry, assistant treasurer of the World Bureau of Girl Guides.

### Will Occupy Pulpit

The pulpit of Immanuel Evangelical Lutheran Church on Livingston street will be occupied by the theological candidate Henry Heck, in both the English and German services next Sunday, August 15. Mr. Heck, who formerly resided in Schenectady, is now engaged in supply work in Immanuel Lutheran Church in New York City.

### Our Growing Population

The following births have been reported to the Board of Health: Mr. and Mrs. Abbott Allen of R. F. D. 2, Kingston, a son, Peter, at Kingston Hospital. Mr. and Mrs. Howell T. Bird, of Windham, a daughter, Betty Ann, at Kingston Hospital. Mr. and Mrs. Philip Loy of Tannersville, a son, Kalman, at Kingston Hospital.

### Home Institute

#### HAVE SUMMER FLOWERS BLOOMING IN A LOVELY INDOOR GARDEN

How would you like to have gay summer flowers blooming indoors this winter? You can have them easily—Petunias, nasturtiums, many more.

There's still time to start the plants from seed, particularly if you soak the seeds overnight in warm water.

Or you can take young plants already growing outdoors. Just punch back the leaves until only two pairs are left, put each plant in a two-inch pot.

But take warning! Don't put blooming plants, for their day is practically over!

If you have a spot of garden set the young plants, pots and all, in the ground until frost threatens. If you haven't put them in a sunny window. When the roots have gotten a good start, move the plants to three-inch, then to five-inch pots.

It's the right season, too, to root English ivy. Gathered two months from now, it may refuse to grow at all. Put a spray in water and it will gracefully frame your window.

Then there are bulbs, ferns, foliage plants, terrariums—just waiting to be started!

Our 40-page booklet, SUCCESS WITH HOUSE PLANTS AND FLOWERS, is packed with new ideas and practical tips for indoor gardens. Tells you how to raise bulbs, ferns, vines.

Send 15 cents for our booklet, SUCCESS WITH HOUSE PLANTS AND FLOWERS, to Kingston Daily Freeman, Home Institute, 103 West 19th street, New York, N. Y. Write plainly your name, address, and the name of booklet.

### EASY MARIAN MARTIN APRON PATTERN MAKES UP IN NO TIME!

PATTERN 9390

Behold, the spirited Tyrolean influence in Pattern 9390—gayest apron pair you ever saw, and doubly desirable for its practicality and easy making. You'll find it well worth the few hours of simple cutting and stitching required to complete this jolly twosome—and when you've finished, you've a pair of sturdy aprons that will aid you in your household tasks all year 'round. Strikingly indeed, is apron "A", its gracefully flared skirt, pointed waistline, shoulders and handy pockets edged with eye-catching ric-rac! Why not make up this style in monotone chambray or percale and trim it with the most vivid braid you can find? Style "B" is equally smart. Send for this practical pattern today. Complete Diagrammed Marian Martin Sew Chart included.

Pattern 9390 may be ordered only in sizes small, medium and large. Small size requires 2½ yards 36 inch fabric for each apron; apron A, 6¾ yards ric-rac.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for EASY MARIAN MARTIN pattern. Be sure to write plainly your NAME, ADDRESS, and STYLE NUMBER.

New adventures in chic! Order the latest MARIAN MARTIN PATTERN BOOK now. Add thrills to your days and evenings with the newest frocks, blouses, skirts, and coats—exactly suited to your type! Chic to satisfy the needs of every age from tots and Junior Miss to matrons who need especially flattering lines. News of the smartest fabrics, accessories! BOOK FIFTEEN CENTS. PATTERN FIFTEEN CENTS. TWENTY-FIVE CENTS FOR BOTH WHEN ORDERED TOGETHER.

Send your order to The Kingdon Daily Freeman, Pattern Department, 212 W. 18th St., New York, N. Y.

### MODES of the MOMENT

by Adelaide Kerr

### Classroom Bound

Sweaters and skirts are going to school again this fall. St. James rose makes a novel color for a washable long-sleeved wool sweater with a ribbon binding of the same hue. It steps out with a deep blue wool skirt.

## in Everything?

WHAT happened in Spain yesterday? Who were the guests at Mrs. So-and-So's daughter's wedding? What did the Yankees do to the St. Louis Browns—and more important, what did the Grunewalds of the City League do to the Phoenix nine? Who is boxing at the auditorium Friday? What's playing at the movies tonight? What are they going to be wearing on Fifth avenue this autumn? What's the latest, what's the last word . . . what's new?

Turn to your Daily Freeman and get the answer! Get it quickly, clearly, accurately. Get it without stirring from your armchair.

The Daily Freeman gives complete news coverage—all the interesting details. Read the Daily Freeman and you read foreign news dispatches filed just a couple of hours ago by correspondents of the leading news services. You read play-by-play accounts of the big local and national sporting events. You read all the local news, colorfully, interestingly and factually told. And because the Daily Freeman gives you the complete news of the world, it gives you the complete news of the stores, as well—for every merchant who advertises in the Daily Freeman assures himself of a wide and interested audience! All the important sales, the "specials," the money-saving offers, the advance style news—all these, too, are in the Daily Freeman.

Live a happier, fuller life! It's easy if you keep posted on all the news each day in the Daily Freeman!

Today!

I will start today serenely with a true and noble aim. I will give unselfish service to enrich another's name. I will speak a word of courage to a soul enslaved by fear. I will dissipate drab discord with the sunshine of good cheer. I will be sincere and humble in the work I have to do. I will praise instead of censure, and see the good in you. I will keep my mind and body sound and flexible and pure. I will give my time and study to the things that long endure. I will do what I am able to advance a worthy cause. I will strive to lessen evil and obey God's righteous laws. I will pray to Him to guide in the straight and narrow way. I will shun false pride and folly. I will live my best today.

—Grenville Kleiser

Doctor—I don't like to mention it but that check you gave me has come back.

Patient—Well, that sure is a funny thing, Doctor, so did my luggage.

Most folks expect too much of what other people are going to give them and do for them.

Learned Scientist—Dumme!

He presents an interesting psychological problem.

Understudy—In just what way?

Learned Scientist—Well, he's so dumb he doesn't know he's dumb.

But if he were just a wee bit dumber he'd be so dumb that even a person as dumb as he is could detect it.

Human existence might be really worth while if the average person could fill as many places in life as a potato does on a menu.

She was beautiful and spoke with a delightful accent. The cashier's heart beat fast as she handed him a check.

Cashier—I'm afraid you haven't endorsed this correctly.

Beautiful One—Indeed!

Cashier—No, it's made out to Jane H. Mattingly and you have written "Jane Mattingly".

Beautiful One—Jane Mattingly is my name.

Cashier—You don't quite understand. What I mean to say is you left out the H.

Beautiful One—Oh, so I have.

She smiled sweetly as she took back the check and dipped her pen in the ink. "Age twenty-one," she wrote.

Hope!

We flowers have more honey than ever bees can borrow.

And more there are of sunny hours, than gray with sorrow.

And lots of things are funny—And always there's tomorrow.

Teacher (calling suddenly on Wee Willie)—What's the shape of the earth?

Wee Willie—Round.

Teacher—How do you know it's round?

Wee Willie—Well, it's square then. I don't want any argument about it.

Life is an adventure, and it is a grand experience to those who consider it in this light. Stella Smart caught the idea as she wrote:

"Behind me is infinite power; before me is endless possibility; around me is boundless opportunity—why should I fear?"

Mary—Helen and I can hardly understand each other when we talk over the telephone.

Frank—Did you ever try talking one at a time?

Read It or Not

Hares never close their eyes.

Barold—There is nothing that can surpass the warmth of a woman's love.

William—Oh, yes there is—the heat of her temper.

"Those Good Old Days"

Youth is an expression. It dances in your eyes—the mirrors of your mind. It shows itself in the smile that plays around the corners of your mouth. It speaks in your laughter. It is evident in your conversation. Of others. So, if you think that you are getting old, warns a writer in Pearson's London Weekly, if the good old days that have gone just stop and realize that those "good old days" have not gone. Today is one of them. Tomorrow and all the other tomorrows can bring you the same thrills and the same beautiful moments. Find out what is lacking in your life, why you have allowed your mind to get lazy. That is all it is, for you are as old as you think you are.

Bell-Founding a Science

Bell-founding is an exact science. The method of harmonizing a peal is so exact that each bell actually gives off seven notes. Old-fashioned ringers, however, said that their old method was better and that the new method reduced the carrying power. It was decided to carry out a scientific test. Two bells, one tuned in the old, the other by the new method, were mounted on buoys, taken out to the North Sea and dropped overboard. At a distance of half a mile the bell tuned in the old way could not be heard, while the bell tuned in the new way was audible for over a mile.

Phone Book Souvenirs

Honolulu—American tourists are using the Mutual Telephone company of Hawaii a great deal of trouble by walking away with Hawaiian telephone directories for souvenirs.

HEM AND AMY

SCHOZZLE MUST BE HAVING A FIT—HE'S SWIRLING AND GROWLING.

SOUNDS LIKE HE HAS RABIES.

DON'T TAKE ANY CHANCES.

BE READY TO WHACK HIM WHEN I PUSH HIS HOUSE OVER.

## Closi A. C. Beats Wittenberg, 15-3

The Closi A. C. celebrated a big day at Wittenberg as they easily "went to town" at the expense of three pitchers and fanned the home club 15-3. The veteran Pete Syca pitched the first out of three innings while his mates pounded off 13 hits off the delivery of Glenn, Bassett, and Jim.

Buck Ashdown led the Kings team with a double and three bases out of four times at bat while Frank Toddy connected for four out of five. Pieper garnered two safeties for the Wittenberg club.

The Closi scored four runs in the first inning and continued to add to their score as the Wittenberg hurlers failed while Syca pitched shutout ball until the seventh inning when he was reached for a trio of runs.

The box score:

CLOSI A. C.

## SLEW MAID

Emma Prader, of New York, 'slew maid' who told friends she was 'going to California to marry a policeman' was killed in a fire in her home in Kingston.

In his capacity as Metropolitan Police Officer, he had the gun and he had the key to the door and a driver is attempting recovery of the evidence.

## WENT "TO SWIM"

Doris "Bibi" Major, 27, hotel elevator girl was in a week, may be the victim of amnesia, say police who are trying to find the girl with "the most beautiful walk in Washington." In C. She had left a note saying she was going for a swim to clear her mind.

## Nazis Protest Expulsion of Three

London, August 9 (AP)—German protesters formally to Great Britain today against the expulsion of three Nazi newspapermen.

The three, Werner von Crome, of the Berlin Lokalanzeiger, and the younger writers Franz Otto Wrede and Wolf Dietrich Langen, working for a news agency which reports news and opinions of Germany abroad, were ordered to leave England by the Home Office last week-end.

There was no explanation of the order.

Dr. E. W. Womack, charge d'affaires of the German embassy, made the protest today at the British consulate in London.

The protest followed conferences of German diplomats at London, Scotland, where German Ambassador Joachim von Ribbentrop is on holiday.

What's going to happen when—and if—China's Central Army smashes head-on against the Japanese military machine? No one knows, but Glenn Barr, experienced foreign correspondent who returned to America recently after years abroad, says here his best guess.

By GLENN BARR,  
Foreign Service Writer.

The question of how the "crack divisions" of Generalissimo Chiang Kai-Shek's Central Chinese army will meet against the Japanese must wait on an even more urgent question.

That is, will Chiang risk his army?

Not only would actual combat involve its prowess, but also Chiang's very position as China's No. 1 man.

Hasn't Done It Yet.

China—or various factions of China—have been fighting Japan for 6 years. And never yet has Chiang raised his "crack" troops.

They are the greater part of his political capital. If he smashes them against the Japanese, as other Chinese armies have been smashed, he will have shot his wad and lost.

But, if the clash does come, these modernized divisions probably will put up a much better fight than the shabby equipped and poorly led forces the Japanese have encountered thus far.

Near Nanking, General Chiang maintains an ambitious training school.

For six years German officers,

now numbering about 50, have been working with the Chinese. Their chief is General Falkenhayn, formerly a standout in the Reichswehr.

The system has been for a selected division to move to Nanking and go through the mill for several months. Late estimates had it that 38 divisions—perhaps

450,000 men—had been through the grind. But they are scattered and their quality varies.

The Chinese instructors judge the Chinese soldiers and junior officers as almost equal to Japanese regulars in localized combat. But the Chinese high command knows very little about handling large bodies of troops.

The Japanese, moreover, would have great superiority in mechanization, artillery and probably in airplanes.

As to morale, that of the Chinese armies has not been tested, while most of the Japanese are veterans with an almost fanatical willingness to die for their emperor.

## Seven Cases in Police Court

Seven cases were brought to the attention of Judge Callaghan this morning in police court. David Mulcahy and John Wido-miski, both strangers, arrested here for public intoxication, were fined \$5 each. William Eckstein and Albert Nelson, also strangers, arrested for similar offenses, were sentenced to five days each in jail.

John McMahon of Brooklyn, who was driving a motorcycle equipped with a homemade license plate, was fined \$4 for not having a legal plate on his machine, and also \$2 for operating the machine with a junior license.

Joseph DeWolf of Jamaica, L. I., was fined \$3 for operating a car without having a driver's license.

John Watterton of East Union street was fined \$2 for operating a Modern Bakery truck without having an operator's license.

Louis Carpin of East Kingston was fined \$2 for public intoxication.

## Railroaders Held Clambake Sunday

The second annual clambake held by Old Man River's Cotton Club of Railroaders, took place Sunday at Walton's Grove with Doran P. Winkert as the chef, and John Mahoney as the master of ceremonies.

An enjoyable time was had at the gathering, which was featured, besides the meal, by speeches, remarks being made by many of the prominent railroaders, members of the Cotton Club, from Kingston, Hohenok, Hackensack and other cities.

Approximately 150 attended the clambake, held as a yearly frolic and get-together for the railroaders.

## Old Clock Glimpsed by Longfellow Kept Running

Boston, Mass.—The 130-year-old clock atop the African M. E. church, which inspired the poet Longfellow, will continue to strike the hour—thanks to Beacon Hill residents.

Several persons pooled funds to meet the upkeep of \$15 a month after learning that the blue faced timepiece was to be stopped permanently because of a lack of money.

Thrice weekly the clock is wound by Fireman Florence Moore. He uses a windlass, pulling the box weights up until they touch the top.

Such notable abolitionists as William Lloyd Garrison, Charles Sumner, Wendell Phillips, and Frederick Douglass spoke from the church's pulpit.

It was the tower of this church as glimpsed from Harvard bridge that inspired Longfellow to pen the lines: "I stood on the bridge at midnight As the clocks were striking the hour, And the moon rose over the city Behind the dark church tower."

Fido's ABC's

The early education of a dog is in many ways similar to the training of young children. They need the same kindness, the same understanding and the same firmness.

But I have found that dogs are a good deal easier to train because they are far simpler beings, writes Howell M. White, Jr., in Cosmopolitan. You should talk to a dog as you would to a child just learning to talk. No baby talk. Use simple language, and always apply the same word to the same object.

An automobile is always an automobile, or it is always an auto, or it is always a car. The words may be interchangeable to you, but they are not to the dog. You always take a walk, even when you are going for a hike, or merely taking a stroll.

Oregon farmers made \$3,000,000 raising seed crops in 1936.

## Flynn Visit Stirs Conjecture

(Continued from Page One)

who, with Mayor LaGuardia, justly with the American Labor party support, may also figure in the battle for the Republican nomination.

While publicly maintaining a hands-off policy in connection with political contests, President Roosevelt has always reserved the right to participate in them where his home state is concerned.

Of further political interest today was the question whether the Chief Executive would put in appearance at the Democratic senatorial "harmony" dinner tomorrow night in Washington to be given for Majority Leader Barkley.

He told a press conference at his home yesterday he had not decided yet whether he could attend.

He also said he had not made any vacation plans and would not do so until Congress adjourned. He added another Hyde Park visit was one of 50 trips he could make, but none was definite.

After ascertaining there was nothing to demand his immediate attention in Washington, he decided to extend his stay here until tonight. He will leave shortly before midnight, arriving back in the capital tomorrow morning. Officials said his schedule today was another one of leisure.

ment of regional directors in each of the states and would make imports subject to the same regulation as domestic goods.

The committee "directed" that the proposed labor standards board apply the 40-hour week as early as possible without upsetting industry.

Administration leaders planned to apply Wednesday to the rules committee for preferred status the bill, hoping to bring it to the House floor the following day for at least two days' debate.

The committee said the legislation would not supersede state wage-hour laws where the standards prescribed are higher than those imposed under the federal statute.

## Polish Picnic Sunday, August 22

The annual picnic held at immaculate Conception School grounds, Delaware avenue, under the auspices of the united societies of the church will take place on Sunday, August 22, rain or shine.

Plans are being made by the committees in charge to make this year's picnic one of the biggest and best ever held by the societies. A full day's enjoyment is promised to those who attend. There will be refreshments and dancing with music from 3 o'clock in the afternoon until midnight.

A cordial invitation to attend the picnic is extended by Stanley Rzewski, general chairman, and the committees to the public.

(Continued from Page One)

as a wedge to split the armed opposition to the Japanese advance has ended and he is being allowed to retire. This enables the Japanese to change the Hopei-Chahar Political Council—established by the Nanking government—to the advisory committee to which the Japanese have appointed survivors of the Mandarin class under the Manchukuo emperors.

There was speculation as to whether the new regime was paving the way for the last of that line, Hsuan Tung, the former boy emperor, to return to the dragon throne. Since 1934 Japan has

maintained him as the Emperor Kang Teh on the throne of Manchukuo.

The tactics used in establishing the current regime, Chinese charged, are identical to those used in changing the government of Manchuria to Manchukuo. Chinese speculated on the possibility Kang Teh might rule a combined Manchukuo and North China from Peiping.

Japanese intimated they had saved the Bank of Hopeh from collapse by financial support and native help in both cities have begun passing out Japanese currency freely.

Port of Entry  
Reliable sources said that Japan planned to abandon the Tientsin customs office and establish the port of entry at Tangku, down the Hai river from Tientsin. The Tientsin customs district has been the source of 20 per cent of customs revenues according to the Nanking government.

As Gen. Kawabe's brigade took over Peiping, Japanese planes circled overhead, dropping leaflets: "Both the Chinese people and North China always will be North Chinese. The Japanese army has driven out your wicked rulers and their wicked armies and will keep them out."

"Although Nanking is preparing to wage a destructive war, do not be afraid. The Japanese army will protect you!"

(The correspondent of the Tokyo newspaper Nichi Nichi reported from Nanking Generalissimo Chiang Kai-Shek "has decided to order Chinese troops along the whole line to start advancing in a major offensive."

"The Chinese troops will advance from three directions, along the Peiping-Suiyuan, Peiping-Hankow, and Tientsin-Pukow railways. Fifty thousand Chinese Communists will operate as a detached force. Irregular forces, such as the Blue Shirts Society, will harass the Japanese rear."

Chinese expressed the belief the advance would come from Japan's armies, moving to consolidate their gains. These advances, Chinese asserted, would come along the lines of the strategic railroads out of North China.

Light skirmishing yesterday indicated that the eastern Japanese column, moving south along the Tientsin-Pukow Railroad, and a Chinese army advancing to the north were meeting 30 miles south of here.

Japanese cavalry, guarding an engineer detachment sent out to repair the tracks cut by the Chinese, clashed with Chinese outposts. The repairs were completed only after a Japanese armored train was rushed out to reinforce the guard of cavalry.

Exports of United States farm products in 1936 were valued at \$767,000,000.
